REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

At Carver Junior High School, we are collaborating with teachers, parents, the community, and district and state resources to maximize the best academic achievement for all children. This process has brought about increases in our language arts scores for students scoring in the proficient and advanced categories as related to other schools in the state similar to our school. We made special efforts this year to highlight various careers of people in the community and former Carver students who are successful in their jobs as adults. Our Career Fair focused on teachers requesting people who could come in and make connections between the real world and the lessons being taught the day of the Career Fair. Our Career Technician worked diligently with teachers, business leaders, and the community to create "Carverville" where the classrooms became businesses to help students understand the "WHY" of classroom lessons. We were fortunate to have seven former Carver students return for our "Pride Seminar" and share their Carver experiences, relate those experiences to their present occupation, and emphasize the importance of students doing their best on all standardized tests. We believe that these two programs are powerful learning strategies to help students make connections while learning and to serve as mental models for students to use as prototypes for success.

Our teachers were able to design their own professional development seminars by selecting a person or event that would best meet their needs to immediately impact student achievement. Each department will make presentations to the faculty about how their experiences can be used throughout the curriculum during our orientation at the beginning of the school year.

Parents are continuing to visit classes during the school day, attending athletic events, School Improvement Council meetings, PTSO meetings, musical concerts, and special events. We receive valuable support and input from parents attending these functions.

The community is an important ally in our efforts to help students achieve at high levels. Our special events are announced in churches, radio programs, and television stations, and various community functions are being held in our building. We are proud and thankful for our community involvement.

Our district and state support have been enormous. The addition of a literacy coach in our building has added excitement for teachers and students. Our literacy team of teachers has employed strategies in their classrooms that were successful immediately. During our faculty meetings, these strategies were shared and other teachers experienced the same success. Students are becoming more excited about reading, and their academic achievements in school will increase.
